

JAMES BRYAN DIORES QUIJADA

San Jose City, Nueva Ecija | (639) 9742-25764 | quijadajamesbryan@gmail.com | <https://james-kun-e-portfolio.vercel.app/>

SUMMARY

IT graduate specializing in AI Automation, Workflow Engineering, and Web Development. Experienced in building AI-powered workflows using n8n, OpenAI API, Make.com, and Zapier, integrating APIs, webhooks, business applications, and data sources to automate repetitive processes. Skilled in PHP/Laravel, JavaScript, [Next.js](#), MySQL, and Python, with hands-on projects involving AI-driven QA automation, document processing, lead qualification, content generation, order automation, and web-based business systems. Focused on building practical, reliable, and cost-effective solutions that reduce manual work and improve operational efficiency.

TECHNICAL SKILLS

- **AI & Automation:** n8n Workflow Architecture, Make.com (Integromat), Zapier Webhooks, OpenAI API Integration, AI Agents
- **Languages & Frameworks:** PHP, Laravel, JavaScript, Next.js, Tailwind CSS, WordPress
- **Data Handling:** JSON Parsing, Advanced Excel, MySQL, Google Sheets/Drive Automation
- **Tools & Platforms:** Vercel, GitHub, Moodle LMS, Webhooks, Google Workspace APIs(Docs,Drive,Gmail)

KEY PROJECTS

Lead Developer | Loan Tracking & Management System

- Designed a financial tracking application using Laravel and MySQL to manage full-loan lifecycles.
- Designed a responsive administrative dashboard using AdminLTE to improve data visualization and management.
- Integrated SMS and Email APIs to automate real-time notifications for loan approvals and payment reminders.
- Implemented Data Portability using Laravel Excel for seamless Import/Export of CSV/Excel reporting data.

System Developer (OJT) | Moodle Learning Management System(LMS)

- Developed and configured a Moodle-based LMS at the CLSU Department of Information Technology to enhance digital education delivery.
- Managed front-end customization and UI/UX improvements to ensure a user-centric learning environment.
- Collaborated on back-end activities and clerical technical support to maintain system stability

AI Automation Developer | AI-Powered YouTube Shorts Automator (Python, Streamlit, Gemini AI, FFmpeg)

- Engineered an end-to-end Python web application using Streamlit to autonomously transform long-form YouTube videos into viral-ready vertical short clips.
- Integrated Google Gemini AI and Faster-Whisper to analyze video transcripts and intelligently pinpoint high-retention segments for automated extraction.
- Orchestrated a dynamic media processing pipeline using yt-dlp, Edge TTS, and FFmpeg to automatically generate AI voiceovers, overlay synchronized subtitles, and render the final MP4 files.

Systems Architect | AI-Driven QA Processing Engine (n8n, OpenAI, Google WorkspaceAPI)

- Built an autonomous QA processing engine in n8n that extracts raw product requirements from PDF and Docx files retrieved via Google Drive.
- Utilized OpenAI Agents to analyze functional requirements, user flows, and edge cases to autonomously generate comprehensive QA test suites.
- Automated the creation of new Google Sheets from specific templates to store test-cases and configured the Gmail API to send success notifications to the team.

Backend Automation Engineer | Agile QA Automation System (n8n, Next.js, Vercel)

- Developed a microservice workflow in n8n that listens to Next.js/Vercel frontend webhooks to process uploaded Product Requirement Document (PRD) files.
- Automated the generation of structured Agile Epics, User Stories, and Sprint Board tasks using GPT-4.1-mini.
- Engineered custom JavaScript nodes to parse and deduplicate AI outputs before logging/success results into Google Sheets and returning the JSON payload to the frontend.

AI Automation Developer | GeniusLabs Blog Automation (n8n, GPT-4, DALL-E3, WordPress)

- Engineered an end-to-end automated content pipeline using n8n to generate and publish SEO-optimized blog posts directly to a WordPress site.
- Integrated OpenAI's GPT-4.1-mini to autonomously draft 1,000-word articles triggered by real-time Google Sheets row updates.
- Utilized DALL-E 3 to auto-generate featured images, formatted the generated text into clean HTML, and managed the publishing status via the WordPress REST API.

Automation Developer | Telegram Order & CRM System Make (Integromat)

- Architected a bi-directional ecosystem using Make.com to sync form submissions with Google Sheets.
- Engineered a Telegram Bot interface for real-time status updates via Callback Queries and Regex data cleaning.
- Automated personalized customer outreach by integrating the Gmail API with real-time changes.

AI Autonomous Gatekeeper | Lead Qualification System GitHub Pages, OpenAI API, Zapier, JavaScript

- Developed an end-to-end autonomous lead-scoring agent that filters incoming inquiries with 95% accuracy based on custom intent parameters.
- Engineered a multi-stage automation pipeline using Zapier Webhooks to connect a static frontend with GPT-4 o-mini for real-time natural language processing.
- Implemented conditional logic branching to route high-value leads to Google Calendar while hunting low-priority inquiries to a Telegram notification bot.
- Optimized the frontend with Tailwind CSS and asynchronous JS to provide a "soft refresh" user experience without page reloads.

WORK EXPERIENCE

SYSTEM DEVELOPER (OJT)

Department of Information Technology, CLSU — Science City of Muñoz, Nueva Ecija

02/2025 — 05/2025

- Configured and customized a Moodle-based Learning Management System for department-wide use.
- Provided UI/UX front-end modifications and managed backend technical support.

FRONT DESK ASSISTANT (Immersion)

City Health Office — San Jose City, Nueva Ecija

11/2019 – 02/2020

- Compiled patient records, assisted visitors with front desk inquiries, and maintained accurate database entries.

EDUCATION

Bachelor of Science in Information Technology

Central Luzon State University — Science City of Muñoz, Nueva Ecija
2020 - 2025

High School & Senior High School Diploma

San Jose City National High School Senior High School — San Jose City, Nueva Ecija
2013 - 2020

CERTIFICATE

- **AWS Cloud Practitioner Certificate**
